| Robinia pseudoacacia           | 86,10 EUR                                                    |                                                                                           |
| Prunus avium                   | 122,18 EUR                                                   |                                                                                           |
| Taxus baccata                  | 385,40 EUR                                                   |                                                                                           |

The prices other species of trees and shrubs will be provided on request

Prices do not include VAT, VAT on seeds is according to the applicable law at a lower rate, i.e. 15%.

The ordered seeds, for which immediate expedition is not required, will be charged for storage costs according to service and storage price list. Please place orders via the ordering system at [www.semenarskyzavod.cz](http://www.semenarskyzavod.cz).

\* The stated price is the base price at 100%

purity and 100% germination

Example - Pinus sylvestris: actual purity 95% and actual germination 75%  
 $482,03 \text{ EUR} \times 0,95 \times 0,75 = 343,45 \text{ EUR}$
